5. Item 5 - Remuneration Report

The Annual Report for the year ended 31 December 2015 contains a Remuneration Report which sets out the remuneration policy of the Company and the remuneration arrangements in place with the Directors.

Under the provisions of the Corporations Act 2001, the shareholder vote is advisory only and will not require the Company to alter any arrangements detailed in the Remuneration Report, should the resolution not be passed. Notwithstanding the legislative effect of this requirement, the Board has determined that it will take the outcome of the vote into consideration when considering the remuneration policy.

6. Resolution 6 - Issue of Options to a Director - Mr Geoff Brown

Background

The Remuneration and Nomination Committee review executive director remuneration packages and non-executive remuneration packages on a regular basis and recommend changes to the Board.

Mr Geoff Brown joined the Board of the Company on 21 April 2016 and as part of his remuneration package was offered 200,000 unlisted options on the same terms and conditions as those options issued to the other non-executive directors and approved at a shareholders meeting on 5 February 2016.

The Board has made a decision to issue options to Mr Geoff Brown on the basis that it will align a portion of their remuneration to achieving continued and sustainable growth in Shareholder value. Structuring a longer term incentive in this way is seen as a cost effective method of providing an incentive for their ongoing commitment and contribution.

The Board considers the proposed issue of options to Mr Geoff Brown is reasonable and appropriate having regard to the Company’s circumstances.

The Company has not granted any options to Directors since the issue on 11 February 2016.

Key terms of the Options

The Board proposes to issue the Options as follows:

<table>
<thead>
<tr>
<th>Number of Options</th>
<th>200,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exercise Price</td>
<td>A$3.00</td>
</tr>
<tr>
<td>Expiry Date</td>
<td>31 January 2019</td>
</tr>
<tr>
<td>Vesting</td>
<td>50% of the number of options after one year, 50% of the number of options after two years</td>
</tr>
</tbody>
</table>

Each option proposed to be issued is exercisable into one Share upon payment of the exercise price.

The options will only be exercisable after reaching their vesting date but must be exercised before their expiry date. Unexercised Options will lapse on their expiry date.

The Options will otherwise be issued on the same terms as any other Options granted under the ESOP (being the plan that was approved by Shareholders at the AGM on 28 June 2002 and available on the website). A number of the key terms include:

- **Treatment on cessation of employment:** If a Director cease to be a director prior to the vesting date, then the options will lapse (other than cessation by reason of death or mental health). If a director cease to be a director of the Company after the options have vested, then if not exercised, those options lapse (although the Company may decide in its absolute discretion that Options do not lapse, and may consider reasons such as retirement, ill health, accident or redundancy).

- **Treatment on change of control:** If a change of control occurs (as defined in the terms of the ESOP), the options will vest and become exercisable.

- **Entitlement to dividends:** The Options will not entitle the holder to any dividends.

- **Transferability:** The Options are non-transferable.

- **Adjustments:** The ESOP contains provisions to adjust the terms of the Options in accordance with the manner provided by the Listing Rules (including for example in the case of a rights issue or consolidation, subdivision or return of the issued capital of the Company).
Valuation of the Options

The Options will not be listed on any stock exchange and so there is no readily ascertainable market value of the Options. Accordingly, in such circumstances the Company has determined it is appropriate to value the Options in accordance with Accounting Standard AASB 2 [Share Based Payments]. The Board notes that the value of the options can vary significantly depending on the methodology used and assumptions made and any one particular valuation methodology is not necessarily representative of the actual value of the Options.

In accordance with the requirements of Accounting Standard AASB 2, the indicative value of the options as at 21 April 2016 (being the latest practicable date prior to the printing of this document) is $73,200 ($0.366 per option) and was calculated using the Black and Scholes option pricing model ("B&S Model").

Set out below are the specific assumptions and variables relied upon in calculating the indicative value set out above:

**Assumptions**

- That the Options are American call options (i.e. they can be exercised at any time prior to the expiry date);
- There are no transaction costs, options and shares are infinitely divisible, and information is available to all without cost;
- Short selling is allowed without restriction or penalty;
- The risk free interest rate is known and constant throughout the duration of the options contract; and
- No dividend is payable on the shares.

**Variables**

- Share price of $1.23 (based on the weighted average price of the Company’s shares over the last 28 trading days prior to the last practicable date before lodgement of this Notice with ASX on 21 April 2016);
- A risk free interest rate of 1.745%;
- Forecast volatility of 83%;
- An exercise price of $3.00
- Expiry date of 31 January 2019 (3 years)

**Notes**

Any change in the variables applied in the B&S Model between the date of the valuation and the date the Options are issued would have an impact on their value.

**Other Implications for the Company**

**Financial implications**

Australian International Financial Reporting Standards require the Options to be expensed which is guided by AASB 2 (Share Based Payments). In accordance with AASB 2, these Options will be expensed pro-rata over the vesting period of the options.

Expensing the Options will have the effect of increasing both the expenses and contributed equity of the Company. Whilst there will be a reduction in profit, there will be no impact on the net assets or the cash position or financial resources of the Company as a result of expensing the Options.

There are no tax implications for the Company in issuing these Options.

**Dilution**

The Company presently has 56,845,926 Shares on issue with 5,515,000 Options outstanding to directors and staff. The grant of these additional 200,000 Options to Mr Geoff Brown will have a dilutionary effect on the percentage interest of exiting Shareholders’ holdings if all Options are exercised.

The dilutionary effect if all the Options proposed to be granted to Directors are exercised would amount to approximately 9.13% of the Company’s current issued Shares as detailed below:

<table>
<thead>
<tr>
<th>Proforma assuming exercise of Options</th>
<th>Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current Shares on Issue</td>
<td>56,845,926</td>
</tr>
<tr>
<td>Potential Shares on Exercise of existing Options</td>
<td>5,515,000</td>
</tr>
<tr>
<td>Potential Shares on Exercise of Geoff Brown Options</td>
<td>200,000</td>
</tr>
<tr>
<td>Potential Shares on issue post exercise</td>
<td>62,560,926</td>
</tr>
<tr>
<td>Existing Shareholders % post exercise</td>
<td>90.86%</td>
</tr>
</tbody>
</table>
If the Options are exercised by Directors, the value of the Company’s Shares may also be diluted. If the Share price is higher than the exercise price the value will be diluted as the Directors will be paying lower prices for the Shares when they exercise the Options. In this regards, it is considered unlikely that the Options will be exercised if the Company’s Share price is lower than the exercise price.

The Board notes that the process of exercising the Options will result in the Company raising additional funds for working capital purposes.

**Other information**

The Company is not aware of other information that would be reasonably required by Shareholders to make a decision in relation to the financial benefits contemplated by the proposed resolution.

(a) Mr Geoff Brown was appointed as a non-executive director of the Company on 21 April 2016. The Company as part of his non-executive director’s remuneration has agreed to grant 200,000 Directors Options at an exercise price of $3.00 on or before 31 January 2019, subject to shareholder approval. Mr Geoff Brown will also receive cash director’s fees and superannuation of A$41,016 per annum as a non-executive director. The 200,000 Director Options proposed to be issued to Mr Geoff Brown are to be issued under the terms of the Employee Share Option Plan approved by shareholders on 28 June 2002. The terms and conditions of these proposed Directors Options are set out in the attached schedule.

(b) **Voting Exclusion Statement**

In accordance with ASX Listing Rule 14.11 and Section 224 of the Corporations Act, the entity will disregard any votes cast on this resolution by:

(i) a director of the entity; and

(ii) an associate of any director.

However, the entity need not disregard a vote if:

(i) if it is cast by a person as proxy for a person who is entitled to vote, in accordance with the direction form on the proxy; or

(ii) it is cast by the person chairing the meeting as proxy for a person who is entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

(c) The maximum number of securities to be issued to Geoff Brown and for which approval is required is 200,000 Options.

(d) No Options have been issued to Directors or any associate of any Director under the EOS Employee Share Option Plan since the last approval on 5 February 2016, when shareholders approved the issue of a total of 3,000,000 unlisted options to Dr Ben Greene (2,000,000), Mr Fred Bart (200,000), Mr Ian Dennis (200,000), Mr Mark Ureda (200,000), Mr Peter Leahy (200,000) and Mr Kevin Scully (200,000). These Options were exercisable at $3.00 per Option and expired on 31 January 2019 and were on the same terms as the options proposed to be issued to Mr Geoff Brown.

(e) In accordance with ASX Listing Rule 10.15.4A all Directors are entitled to participate in the EOS Employee Staff Option Plan subject to shareholder approval. The names of the Directors are Fred Bart, Dr Ben Greene, Ian Dennis, Mark Ureda, Kevin Scully, Peter Leahy and Mr Geoff Brown.

(f) The Company will issue the options within 12 months of the date of shareholder approval.

(g) The options are being issued for no monetary consideration. The exercise price of $3.00 per option were determined by the directors for the issue of options to directors based on the current share price of $1.22 (21 April 2016). The exercise price of $3.00 is more than 2.4 times the current share price.

(h) The Company intends to use the funds raised through the issue and exercise of the Options for working capital.

### Chapter 2E of the Corporations Act

Chapter 2E of the Corporations Act regulates the provision of financial benefits to related parties by a public company. Section 208 of the Corporations Act prohibits a public company giving a financial benefit to a related party unless one of a number of exceptions apply.

A “financial benefit” is defined in the Corporations Act in broad terms and includes a public company issuing securities.
For the purpose of this meeting, a “related party” includes:

(a) a director;

(b) an entity over which a director has control; and

(c) an entity which believes, or has reasonable grounds to believe, that it is likely to become a related party in the future.

For the purposes of Chapter 2E of the Corporations Act, Mr Geoff Brown is a related party of the Company by virtue of the fact that he is a director.

Section 208 of the Corporations Act provides that for a public company to give a financial benefit to a related party of that company, the public company must:

(a) obtain the approval of members in the way set out in Sections 217 to 227; and

(b) give the benefit within 15 months after the approval.

unless the giving of the financial benefit falls within an exception set out in Sections 210 to 216 of the Corporations Act.

The Board (other than Mr Geoff Brown) has formed the view that Shareholder approval under Chapter 2E of the Corporations Act is not required for the proposed issue of Director Options because the issue of Options is considered to be reasonable remuneration for the performance of services by Mr Geoff Brown in his capacity as a Director. The proposed issue will therefore fall within the exception provided by Section 211(1) of the Corporations Act to the requirement to obtain shareholder approval for the giving of a financial benefit to a related party in accordance with Chapter 2E of the Corporations Act.

Approval pursuant to Listing Rule 7.1 is not required in order to grant the Options to the Related Party as approval is being obtained under ASX Listing Rule 10.14. Accordingly, the grant of the Options to a related Party will not be included in the 15% calculation of the Company’s annual placement capacity pursuant to ASX Listing Rule 7.1.
Terms and Conditions of Directors Options Proposed to be issued to Mr Geoff Brown

a) Each Option entitles the holder to subscribe for and be allotted one ordinary share in the capital of the Company. The exercise price is $3.00 per Option.

b) The Options are exercisable at any time prior to 5.00 pm on 31 January 2019 (the “Expiry Date”) by notice in writing to the Directors accompanied by the payment of the exercise price.

c) The Options are not transferable, except with the Board’s approval, or by force of law on death or legal incapacity.

d) No application will be made to the ASX for Official Quotation of the Options.

The Company will apply for Official Quotation by the ASX of all shares issued upon exercise of Options within 3 Business Days after the date of allotment of those Shares.

g) There are no participating rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered or made to the shareholders during the currency of the Options. However, the Company will send a notice to each option holder at least 9 business days before the record date for any proposed issue of capital. This will give option holders the opportunity to exercise their Options prior to the date of determining entitlements to participate in any such issue.

h) There are no rights to a change in the exercise price, or in the number of Shares over which the Options can be exercised in the event of a bonus issue by the Company prior to the exercise of any Options.

i) In the event of any reorganisation of the issued capital of the Company on or prior to the Expiry Date, the rights on an option holder will be changed to the extent necessary to comply with the applicable ASX Listing Rules at the time of the reorganisation.

j) The Company will, at least 20 Business Days before the Expiry Date, send notices to the option holders stating the name of the option holder, the number of Options held, the number of Shares to be issued on exercise of the Options, the exercise price, the due date for payment of the exercise price, and the consequences of non-payment.

k) The 200,000 Options will vest on the basis of 50% of the number of Options after the one year and the balance after two years.
