## **Appointment of David Black as Director**

Canberra, 4 January 2021

Electro Optic Systems Holdings Limited (ASX: EOS) is pleased to announce that David Black has joined the Board of the Company as an independent non-executive director effective from 1 January 2021.

Before retiring from the Deloitte Touche Tohmatsu Australia partnership in 2016, David Black spent 25 years with Deloitte in the UK and Australia. During that time David provided services to a range of clients including Defence, Manufacturing and Government sectors.

David's experience includes working with growing start-up businesses, multinational corporations and the boards of ASX listed entities on complex accounting, internal and external auditing, risk management, corporate governance and due diligence engagements. David previously served as the audit partner for the Company for the periods ending from June 2005 to December 2009 and June 2012 to June 2016.

David is a Fellow of Chartered Accountants Australia and New Zealand, a Fellow of the Institute of Chartered Accountants in England and Wales, has a BA(Hons) in Economics, an MBA and is a Graduate of the Australian Institute of Company Directors.

Since his retirement from Deloitte David has established a growing family business, The Coastal Brewing Company, and he currently sits on two Government sector audit committees serving as the independent member.

This announcement has been authorised for release to the ASX by Fred Bart, Chairman.

## **ABOUT ELECTRO OPTIC SYSTEMS (ASX: EOS)**

### **EOS operates in three sectors: Defence, Space and Communications**

- EOS Defence Systems specialises in technology for weapon systems optimisation and integration, as well as ISR (Intelligence, Surveillance and Reconnaissance) for land warfare. Its key products are next-generation remote weapon systems, vehicle turrets and counter-UAS systems.
- EOS Space Systems specialises in applying EOS-developed optical sensors to detect, track, classify and characterise objects in space. This information has both military and commercial applications, including managing space assets to avoid collisions with space debris, missile defence, space control and space protection.
- EOS Communications Systems provides global satellite communications services and systems. It specialises in innovative optical, microwave and on-the-move radio and satellite solutions that deliver high speed, resilient and assured satellite communications anywhere in the world.

This announcement contains certain "forward-looking statements" including statements regarding EOS' intent, belief or current expectations with respect to EOS' business and operations, market conditions, results of operations, financial condition, and risk management practices. The words "likely", "expect", "aim", "should", "could", "may", "anticipate", "predict", "believe", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings, financial position and performance, establishment costs and capital requirements are also forward-looking statements. Forward-looking statements including projections, guidance on future earnings and estimates are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. This announcement contains such statements that are subject to risk factors associated with an investment in EOS. Forward-looking statements involve known and unknown risks, uncertainties and assumptions and other important factors that could cause the actual results, performances or achievements of EOS to be materially different from future results, performances or achievements expressed or implied by such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this announcement.
